Who We Are

Data Centre Decommissioning

"We are your trusted Data Center Solutions Partner, working together to solve the most complex problems with affordable common-sense solutions."

Travel Safe, Inc. specializes in precision Data Center interior demolition, build back & restoration, environmentally recycling, and the purchase and sale of used equipment.

We are committed to delivering value as your Data Center expert, providing nationwide services and distinguishing ourselves from the competition by offering innovative turnkey solutions that are faster, and less expensive.

We guarantee to pay more for your used equipment while also providing better service and product warranties.

What We Do

Demolition

Data Centre Decommission Experts

Our objective is to increase your profitability by recovering some of the expenses of your infrastructure.

Data Destruction

Server & Hard Drive Optimization

We secure IT Asset Disposition (ITAD), Electronic Service Delivery, HDD & Media sanitization, and certified data deletion.

Relocation

Data Center Moving Experts

Your delicate data centre equipment will be expertly disconnected, removed, transported, rigged, and reinstalled by our team.

Build Back

Interior Restoration Services

We restore floor, wall, drywall, and paint in decommissioned Data Centers to meet ownership and tenant move-out needs.

Who We Service

We Are The Experts in Recovery.

Demolition Contractors

As an industry-leading turnkey solutions provider, we decommission data centres, offer data centre consultancy, carry out certified data destruction, rig and transport sensitive equipment, perform recycling, and finish interior build-back and restoration.

Tenant Move-Outs

We have worked with major nationwide data centres and know how important your facility infrastructure equipment is. We buy secondhand equipment and assist you recoup capital investment expenditures, optimizing project costs.

Landlords

Your investment can be projected in a way that minimises tenant downtime with the help of our knowledgeable project management consulting team. Regardless of how big or small the job is, we will plan and execute it.

Property Managers

Travel Safe's data centre experience makes us your one-stop shop. We will help you navigate the complicated data centre landscape and quickly and safely return your facility to original condition with minimal disruption to your tenants and their clients.

Recycle

Ethically & Responsibly

We buy and recycle cabling, lead-acid batteries, FM-200, Halon, electronic waste, and diesel fuel.

Buy & Sell

Used and Refurbished

We buy & sell data center equipment, HVAC equipment, electrical equipment, generators batteries & battery storage.
